The following facts are being furnished for your information concerning the telephone surveillance on the residence of the late Martin Luther King, Jr., authorized by former Attorney General Robert F. Kennedy and installed by this Bureau.

On July 16, 1963, an official of this Bureau saw Mr. Kennedy at the latter's request. On that occasion, Mr. Kennedy said he was considering the possibility of a telephone surveillance of King because of King's communist associations. He was advised by the Bureau official that since King was in travel status practically all the time, the productivity of such a surveillance was doubtful and he was asked to consider the repercussions if it ever became known that such a surveillance had been instituted on King. Mr. Kennedy said he was not concerned about possible repercussions and that he thought it advisable to have as complete coverage as possible in view of the possible communist influence in the racial situation. He was told that the feasibility of such coverage would be determined and an appropriate recommendation would be submitted to him.

On July 25, 1963, Mr. Kennedy changed his mind concerning his request and thought it ill advised at that time, but on October 7, 1963, a request for authority to place a telephone surveillance on King's residence was sent to Mr. Kennedy. On October 10, 1963, he authorized this 100-106670

SUBJECT: MARTIN LUTHER KING, JR.

Be...

The Attorney General orally informed me today that he had been considering the request he made on July 16, 1963; for a technical surveillance on Martin Luther King at his home and office and was now of the opinion that this would be ill advised.

At the time the Attorney General initially asked for such a surveillance, he was told there was considerable doubt that the productivity of the surveillance would be worth the risk because King travels most of the time and that there might be serious repercussions should it ever become known the Government had instituted this coverage. These were the very thoughts that the Attorney General expressed today in withdrawing his request.

With reference to the other technical surveillance requested at the same time, namely, the one on Clarence Benjamin Jones, the Attorney General felt this was in a different category and we should go forward with this coverage. It is noted that this was previously approved in writing by the Attorney General.

The memorandum we sent to the Attorney General on July 23, 1963, requesting authority for the King surveillance has been retrieved and is attached.

h

ACTION TO BE TAKEN:

We will take no further action to effect technical coverage on Martin Luther King, either at his home or at his office at the Southern Christian Leadership Conference, in the absence of a further request from the Attorney General.

MEMORANDUM FOR THE ATTORNEY GENERAL

RE: MARTIN LUTHER KING, JR.
SECURITY MATTER - COMMUNIST

Martin Luther King, Jr., resides at 563 Johnson Avenue, N.E., Atlanta, Georgia, and is the President of the Southern Christian Leadership Conference, 330 Auburn Avenue, Atlanta, Georgia. He is closely associated with Stanley Levison, a concealed member of the Communist Party, USA. Levison has described King as being a wholehearted Marxist who has studied Marxism, believes in it, agrees with it, but because of his being a minister of religion does not dare to espouse it publicly.

FROM : C. A. Evans

SUBJECT: COMMUNIST INFLUENCE IN RACIAL MATTERS

The AG was contacted at his request late this afternoon. He said that Clarence Benjamin Jones, a NY attorney who has had close association with Martin Luther King, and with Stanley Levinson (a concealed communist), had been in to see Burke Marshall about the racial situation. According to the AG, Jones had indicated he had some reservations about talking with Levinson on the phone. Marshall thought he might have been referring to a possible telephone tap, and passed it off by telling Jones this was something he would have to take up with Levinson.

The purpose of the AG's contact was that this brought to his attention the possibility of effecting technical coverage on both Jones and Martin Luther King. I told the AG that I was not at all acquainted with Jones, but that, in so far as King was concerned, it was obvious from the reports that he was in a travel status practically all the time, and it was, therefore, doubtful that a technical surveillance on his office or home would be very productive. I also raised the question as to the repercussions if it should ever become known that such a surveillance had been put on King.

The AG said this did not concern him at all; that in view of the possible communist influence in the racial situation, he thought it advisable to have as complete coverage as possible. I told him, under the circumstances, that we would check into the matter to see if coverage was feasible and, if so, would submit an appropriate recommendation to him.

If you approve, we will have a preliminary survey made to see if technical coverage is feasible with full security.

Memorandum Evans to Belmont 7/16/63 discloses that in view of the possible communist influence in the racial situation, the Attorney General has requested that technical surveillances be placed immediately on Martin Luther King, leader of the Southern Christian Leadership Conference, and Clarence Benjamin Jones, a New York City attorney, who is closely associated with King. Memorandum points out that if the Director approves, steps will be taken toward having a preliminary survey made to see if technical surveillances are feasible and can be conducted with full security. The Director noted "Yes" and also inquired "What do our files show on Jones?"

ACTION:

(1) There is attached a teletype to Atlanta and New York instructing that discreet surveys to determine if technical surveillances on King and Jones are feasible and can be conducted with full security.

(2) A separate memorandum is being prepared covering the Director's question relative to what our files show concerning Jones.

SUBJECT: MARTIN LUTHER KING, JR.
SECURITY MATTER - COMMUNIST

This is a recommendation requesting the Attorney General's authority for the installation of a technical surveillance covering the home telephone of Martin Luther King, Jr., as well as the telephone covering the Southern Christian Leadership Conference, of which King is the President.

You will recall that on 7/16/63 the Attorney General advised Assistant Director Evans that in view of the possible communist influence in the racial situation, he desired that consideration be given to placing a technical surveillance on Martin Luther King, Jr., leader of the Southern Christian Leadership Conference, and Clarence Benjamin Jones, a New York City attorney, who is closely associated with King. The Attorney General indicated he was not concerned with the repercussions if it should ever become known that such surveillances had been put into effect and that he thought it advisable to have as complete coverage as possible.

King resides at 563 Johnson Avenue, N.E., Atlanta, Georgia, and is the President of the Southern Christian Leadership Conference, 330 Auburn Avenue, Atlanta. King is on the Reserve Index. He is closely associated with Stanley Levison, a concealed member of the Communist Party, USA. ~~King has been described by Levison as a whole-hearted Marxist who has studied Marxism, believes in it, agrees with it, but because of his being a minister of religion does not dare to espouse it publicly.~~ Sensitive foreign intelligence operation

Pursuant to the Attorney General's request that consideration be given to placing a technical surveillance on King, our Atlanta Office was requested to conduct a survey to ascertain if such coverage is feasible and could be conducted with full security. Atlanta teletype 7/20/63 discloses that technical coverage on King is feasible and can be conducted with full security.

At present there are 58 investigative-type technical surveillances in operation and 6 being installed. The limit is 75.

A separate memorandum requesting Attorney General's authority to place a technical surveillance on Clarence Benjamin Jones has previously been submitted.

Attorney General has requested as complete coverage
 as possible on Martin Luther King in view of possible communist
 influence in the racial situation. Atlanta has made survey
 relative to King's organization, Southern Christian Leadership
 Conference, but in order to afford complete coverage it is felt
 that Atlanta should also conduct survey relative to feasibility
 of placing technical surveillance on King's home telephone.

MARTIN LUTHER KING, JR.
SECURITY MATTER - C

Reurtel 7/24/63 "Communist Influence in Racial Matters" advising technical surveillance feasible on residence of Martin Luther King, Jr., as well as Southern Christian Leadership Conference.

The Attorney General has disapproved technical coverage on King and the Southern Christian Leadership Conference. Therefore, no further action is to be taken in this matter.

- 1 - Birmingham
- 1 - Mobile

NOTE:

Memorandum Evans to Belmont 7/25/63 discloses that the Attorney General orally advised on 7/25/63 that he now considers request for technical coverage on King that he made 7/16/63 to be ill advised; that in view of King's constant travel status there was considerable doubt that productivity of technical coverage would be worth the risk. Therefore we are instructing Atlanta to take no further action in this matter.

Martin Luther King, Jr., the well-known Southern Negro leader who is President of the Southern Christian Leadership Conference (SCLC), is being closely advised by Stanley Levison, a New York attorney and secret member of the Communist Party (CP). He has made the statement that King is a "wholehearted Marxist who has studied it (Marxism), believes in it, agrees with it, but because of his being a minister of religion does not dare to espouse it publicly." Levison has appeared before the Senate Internal Security Subcommittee and refused to answer questions concerning his membership in the CP. Levison continues to act as advisor to King. In June of 1962, he recommended that King hire Hunter Pitts O'Dell as an administrative assistant. King, acting upon this advice, hired O'Dell in this capacity but on November 2, 1962, as a result of a newspaper article identifying O'Dell as a communist, King announced that O'Dell had resigned from this position and his resignation had been accepted. However, as late as August 30, 1963, O'Dell has been observed by Agents of the FBI entering and leaving the SCLC office in New York City. O'Dell, under the pseudonym Cornelius James, was elected to the National Committee of the CP in 1959.

Information developed during August, 1963, indicates that King, who is married, maintains intimate relationships with at least three women, one in Atlanta, one in Mt. Vernon, New York, and one in Washington, D. C.

OBSERVATIONS:

King's duplicity is amply illustrated in his public announcements concerning O'Dell's lack of connections with the SCLC although, as mentioned above, O'Dell was observed entering and leaving the New York office of the SCLC as late as August 30, 1963. King's extramarital affairs while posing as a minister of the gospel leave him highly susceptible to coercion and possible blackmail and, most important, in view of his continued close association and willingness to accept advice and submit to the influence of such communists as Levison and O'Dell, we should have as complete coverage as possible of King's activities. A large part of the information set out above as well as a great deal of additional information of interest has been developed through technical coverage of close

associates of King, such as Stanley Levison and Clarence B. It is believed that additional data of extreme interest in this matter could be obtained through technical coverage of King's residence in Atlanta and the Atlanta and New York offices of the SCLC.

RECOMMENDATION:

There is attached a proposed airtel instructing Atlanta to conduct a survey as to the feasibility of installing a technical surveillance on King's residence, as well as the offices of the SCLC. Copies of this airtel are also being forwarded to the New York Office with instructions to conduct a similar survey on the New York office of the SCLC.

Surveys have been made on the residence of Martin Luther King, Jr., in Atlanta, Georgia, and the headquarters of the Southern Christian Leadership Conference (SCLC) in New York City. These surveys indicate it is feasible to install technical surveillances on these places with full security.

You will recall that on 7/16/63 the Attorney General advised Assistant Director Evans that in view of the possible communist influence in the racial situation, he desired that consideration be given to placing a technical surveillance on Martin Luther King, Jr., leader of the SCLC, and Clarence B. Jones, a New York City attorney who is closely associated with King and involved in the racial movement. The Attorney General at that time indicated he was not concerned with the repercussions if it should ever become known that such surveillances had been put into effect and that he thought it advisable to have complete coverage. However, when such a request was made of the Attorney General on 7/22/63, he rejected coverage on King.

King resides at 563 Johnson Avenue, N.E., Atlanta, Georgia and is president of the Southern Christian Leadership Conference, 330 Auburn Avenue, Atlanta. The New York office of the SCLC is located at 312 West 125th Street, New York City.

King is closely associated with Stanley Levison, a concealed member of the Communist Party, USA (CPUSA). King has been described by Levison as a wholehearted Marxist who has studied Marxism, believes in it, agrees with it, but because of his being a minister of religion does not dare to espouse it publicly.

The Attorney General has approved coverage on Stanley Levison, Clarence B. Jones, and the Gandhi Society for Human Rights. These installations have been extremely productive in showing the influence

of Levison on King as well as Levison's behind-the-scenes influence in the racial movement. At present there are 57 investigative-type technical surveillances in operation and three are awaiting installation. The limit is 75.

OBSERVATIONS:

In view of the Attorney General's request that our coverage be as complete as possible and because of the communist influence in the racial movement shown by activities of Stanley Levison as well as King's connection with him, it is believed desirable to put all possible coverage on the racial leaders in order to obtain full information.

RECOMMENDATION:

I hope you don't change your mind on this. W

Memorandum Sizoo to Sullivan 10-18-63 set forth certain requests of SAC McMahon of the Atlanta Office in connection with the monitoring of technical installations under consideration in connection with captioned matter.

On 10-21-63, SAC McMahon was advised that the technical installations on the residence of King and the Headquarters of the Southern Christian Leadership Conference (SCLC) had been approved. He was also advised that his request for the expenditure of \$250 per month for a monitoring plant outside of the Atlanta Office was approved. In connection with Atlanta's request for the services of an outside sound man in connection with these installations, he was advised that the services of Special Agent William F. Heist of the Miami Office should be obtained. (SAC McMahon is to arrange with the Miami Office for the presence of Special Agent Heist when he is needed. Heist's personnel file shows nothing which would prevent such an assignment.) McMahon was also advised that his request for additional technical equipment was being handled by a separate teletype sent to him on 10-21-63. He was advised that if any question arises as to the need of the Atlanta Office for additional equipment, SA Baker of the Electronics Section of the Laboratory is thoroughly familiar with the equipment already ordered and sent to Atlanta.

A review of your letter reveals the possible existence of certain security hazards in connection with the installation of tesur on the Southern Christian Leadership Conference (SCLC). You indicate that a switch of pairs in order to provide easier access in a more desirable location is found to be impossible. Prior to further consideration of this matter, the Bureau desires additional information as indicated below:

1) Outline in detail the exact steps necessary to effect a tesur installation on the office of the SCLC. Furnish a concise evaluation as to whether full security can be assured utilizing a sound man from another office.

2) It is noted that in connection with this proposed installation as well as the proposed installation in the case of King's residence you mentioned in your airtel of October 3, 1963, you proposed to locate the monitoring plant in Headquarters facilities. In this connection, advise whether the telephone cable serving the Atlanta Office likewise serves other offices in the building occupied by your office and/or any adjacent buildings.

Re Atlanta airtel 10/5/63.

Enclosed herewith is a copy of FD 142 relating to proposed Tesurs on subject and the Southern Christian Leadership Conference (SCLC).

Through sources, efforts were made to attempt to switch certain pairs in order to facilitate the installation of a Tesur on the four pairs serving the SCLC Office as the cross frame where these pairs appear is located on a pole immediately in front of the SCLC Office. This cross frame is visible through two large windows from within the Office of SCLC and practically on the same level as the windows.

Source at Southern Bell has advised that such a switch of pairs in order to provide easier access in a more desirable location is not possible.

The only sound trained Agent in the Atlanta Office has in the past interviewed Dr. MARTIN LUTHER KING, JR., and his father, as well as other employees of SCLC. At the time of the interview of Dr. KING, JR., a signed statement was taken and the interview was of approximately two hours duration. In the event installation of instant Tesur is authorized, it is believed that a sound trained Agent should make the installation who is unknown to subject and other employees of SCLC.

It is noted that by previous communication on October 3, 1963, results of survey was forwarded the Bureau regarding Tesur on subject's residence.

Memorandum Sizoo to Sullivan 10-18-63 set forth certain requests of SAC McMahon of the Atlanta Office in connection with the monitoring of technical installations under consideration in connection with captioned matter.

On 10-21-63, SAC McMahon was advised that the technical installations on the residence of King and the Headquarters of the Southern Christian Leadership Conference (SCLC) had been approved. He was also advised that his request for the expenditure of \$250 per month for a monitoring plant outside of the Atlanta Office was approved. In connection with Atlanta's request for the services of an outside sound man in connection with these installations, he was advised that the services of Special Agent William F. Heist of the Miami Office should be obtained. (SAC McMahon is to arrange with the Miami Office for the presence of Special Agent Heist when he is needed. Heist's personnel file shows nothing which would prevent such an assignment.) McMahon was also advised that his request for additional technical equipment was being handled by a separate teletype sent to him on 10-21-63. He was advised that if any question arises as to the need of the Atlanta Office for additional equipment, SA Baker of the Electronics Section of the Laboratory is thoroughly familiar with the equipment already ordered and sent to Atlanta.

Reurlet dated October 10, 1963.

A review of your letter reveals the possible existence of certain security hazards in connection with the installation of tesur on the Southern Christian Leadership Conference (SCLC). You indicate that a switch of pairs in order to provide easier access in a more desirable location is found to be impossible. Prior to further consideration of this matter, the Bureau desires additional information as indicated below:

1) Outline in detail the exact steps necessary to effect a tesur installation on the office of the SCLC. Furnish a concise evaluation as to whether full security can be assured utilizing a sound man from another office.

2) It is noted that in connection with this proposed installation as well as the proposed installation in the case of King's residence you mentioned in your airtel of October 3, 1963, you proposed to locate the monitoring plant in Headquarters facilities. In this connection, advise whether the telephone cable serving the Atlanta Office likewise serves other offices in the building occupied by your office and/or any adjacent buildings.

Re Atlanta airtel 10/5/63.

Enclosed herewith is a copy of FD 142 relating to proposed Tesurs on subject and the Southern Christian Leadership Conference (SCLC).

Through sources, efforts were made to attempt to switch certain pairs in order to facilitate the installation of a Tesur on the four pairs serving the SCLC Office as the cross frame where these pairs appear is located on a pole immediately in front of the SCLC Office. This cross frame is visible through two large windows from within the Office of SCLC and practically on the same level as the windows.

Source at Southern Bell has advised that such a switch of pairs in order to provide easier access in a more desirable location is not possible.

The only sound trained Agent in the Atlanta Office has in the past interviewed Dr. MARTIN LUTHER KING, JR., and his father, as well as other employees of SCLC. At the time of the interview of Dr. KING, JR., a signed statement was taken and the interview was of approximately two hours duration. In the event installation of instant Tesur is authorized, it is believed that a sound trained Agent should make the installation who is unknown to subject and other employees of SCLC.

It is noted that by previous communication on October 3, 1963, results of survey was forwarded the Bureau regarding Tesur on subject's residence.

If installations are approved additional equipment for plant operation is required as this office has currently assigned to it two tape recorders, one 6A amplifier and one 6AR dial recorder. There are no playback units available Atlanta for transcription of tapes.

In view of the foregoing, if this installation is approved, Laboratory is requested to send a technician to Atlanta to make installation.
